REPORT

YOG SE NIROG

A UNIQUE IT CENTRIC, TRADITIONAL HEALING INITIATIVE FOR HOME QUARANTINED COVID POSITIVE INDIVIDUALS

DEPARTMENT OF AYUSH
GOVERNMENT OF MADHYA PRADESH

BACKGROUND

The massive COVID 19 surge challenged the health systems across the globe which required urgent mobilization of resources globally. During this second wave, Madhya Pradesh reported 25.3% positivity rate in April 2021 and over 10,000 new patients per day. Number of patients affected with severe infection was high as compared to the previous wave causing panic and fear in the masses. Although the bed availability in hospitals and oxygen supply chain was kept intact and the essential medicines were made available with considerable efforts put by the state government, the rising number of active cases was a cause of grave concern.

To address the challenge, and cater health services to all and meeting the guidelines, patients with mild to moderate conditions of disease, were advised home isolation. A need was felt to harmonize the situation and reach every affected individual in home isolation, to counter the unprecedented fear. Our traditional treasure "YOG" was identified as a means to benefit this large segment of suffering humanity. Recognizing the same, Honorable Chief Minister of Madhya Pradesh, directed for Yoga intervention amongst Covid-19 home isolated patients.

Yoga is an extremely subtle science. It is an art and science of healthy living. Yoga leads to perfect harmony between mind and body, man and nature, individual consciousness and body, individual consciousness and universal consciousness. Yoga helps to build up psychophysiological health, emotional harmony and manage daily stress and its consequences. Regular practice of yoga has shown effective results.

It is an established fact that Yoga offers mental and physical alignment with enhanced performance in all age groups. Researchers worldwide have established that Yoga along with desired treatment improves healing and quality of life. In the current situation, Yoga practices will help to bring mental relaxation, reduce stress, increase vital capacity of lungs and overall response to treatment. Yoga helps in enhanced healing and improved immunity. Therefore, well planned Yoga modules for the home isolated, appeared to be the solution.

CONCEPTUALISATION AND LAUNCH OF "YOG SE NIROG"

To reduce the state of panic in the home isolated COVID positive cases, along with acceleration of the healing process and developing improved immune response, a unique initiative to bridge the gaps was taken up by the state of Madhya Pradesh.

In order to effectively execute the direction of Honorable Chief Minister, the **"Yoga Se Nirog"** programme was conceptualized to be implemented across the state within a short span of two-three days and launched on 23rd April, 2021 by Hon'ble Chief Minister of Madhya Pradesh. This is the first of its kind initiative in this challenging situation and is a volunteer-based implementation model with coordination of Government departments driven by IT system.

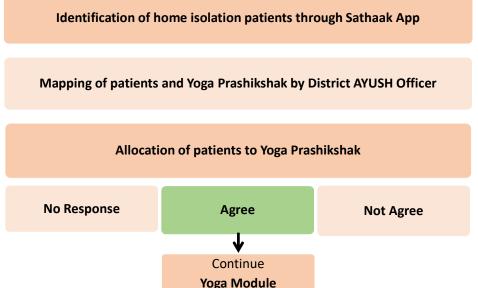

It was jointly executed by the Department of AYUSH GoMP, Department of School Education, GoMP, Department of Tribal welfare, GoMP and Indian Yoga association. Home isolated patients were presented with a choice for opting for the 3 days programme for home isolated COVID patients in all 52 districts of the state.

OPERATION

The training program on structured yoga protocol including Yogasanas, Pranayama and Dhyan was organized thrice through an online platform by the MAP-IT for 4176 enrolled Yog Prashikshaks. This gave a golden opportunity to people who had the requisite qualification/certification and were at home. Those who were willing to serve were enlisted to work as Yog Prashikshaks. These were the volunteers from AYUSH department, School Education Department and Indian Yoga Association who came together on a voluntary basis for the larger benefit of suffering humanity.

SARTHAK APP

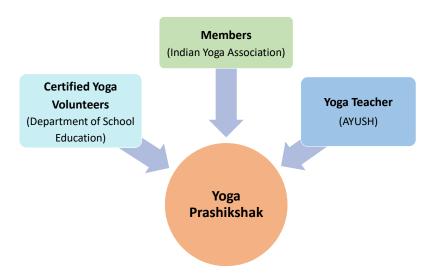

Utilization of technology for ensuring healthcare delivery across the state

Sarthak app was used for identification of home isolated patients from state government database. Patients were allotted to Yog Prashikshaks. Based on the consent of the patients, those who agreed were given the proctored yoga module of Pranayams, Meditation and Asanas by the designated Yog Prashikshaks, initially for three days. The patient and Yog Prashikshaks had a one-to-one interaction on this informal interface which strengthened their will and satisfied their queries. The online classes with Yog Prashishaks also helped the patients to deal with their feelings of loneliness, fear and anxiety. Daily monitoring and reporting were done with specifications of beneficiaries, those who refused and those who could not be reached due to inability to connect. This IT tool answered the governments concern and materialized the one-to-one interaction to combat the plight of the home

isolated COVID positive patients. The reach of the program ensured a feeling of inclusiveness in the people and reinforced our traditional belief of "Vasudhaivkutumbakam" aligned with our age-old yogic traditions.

Diverse group of volunteer participation

YOG PROTOCOL

The training of Yog Prashikshaks was done by experts based on Covid 19 Yoga protocol of 10 minute, designed for the beneficiaries by GoI and Ministry of AYUSH. Their special needs based on pandemic presentations were considered to make the protocol comprehensive, effective and acceptable. The protocol has a prompt segment of preparing the patient, followed by interventions and then a tapering conclusion done sequentially to harmonize the procedures. The components of the protocol are:

- 1. Beginning with Prarthana/prayer for 30 seconds
- 2. Shithilikaran/Loosening Neck, shoulder and abdominal movements for 2 minutes
- 3. Aasans in standing position Tadasan, Ardhchakrasan of 1 minute each
- 4. Aasan in sitting posture Shashankasan for 1 minute
- 5. Aasan in prone position Bhujangasan for 1 minute
- 6. Aasan in supine position Pawanmuktasan for 1 minute
- 7. Pranayam Anulomvilom, Nadishodhan for 1 minute
- 8. Dhyan for 1 minute
- 9. Conclusion with Sankalp/Shanti (resolution) for 30 seconds

YOG AASANS AT A GLANCE

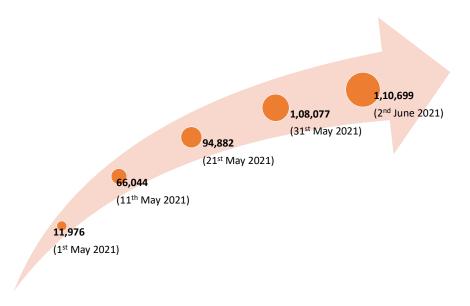

DOCUMENTATION

On a daily basis, the data of allotted patients, patients who could be contacted and not contacted, patients who agreed to participate and patients who actually did yog has been updated using the Sarthak app. The cumulative data was maintained for batches of beneficiaries and total individuals benefitted as well. The data expresses the reach of the program in the various districts of Madhya Pradesh and also the modalities of implementation in coherence with the change in active COVID cases in the state. The data also reflects the number of males/females and the different age groups, which are very important for analysis of this program and designing new protocols in future. There is also a third-party reporting done by District Command Care Center which states 96% of participation of people who agreed, which is a reflection of its participation.

Cumulative number of beneficiaries: Yog se Nirog

MANAGEMENT OF THE PROGRAM

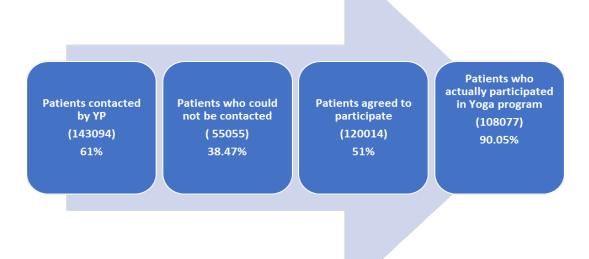

The whole team is being supervised by District Ayurveda Officers, District Education Officers and Divisional AYUSH Officers under the direct control of Dept. of AYUSH and Dept. of School Education, Government of Madhya Pradesh. The data of beneficiaries is being maintained with the help of Sarthak App, developed by the state's MAP-IT.

The whole program "YOG Se NIROG" was planned, reviewed and coordinated by Principal Secretary, AYUSH, Smt. Caralyn Khongwar Deshmukh, Principal Secretary, School Education, Smt. Rashmi Shami, Smt. Jayshree Kiyawat, Commissioner Public Instruction, Pushpanjali Sharma, Chairperson, International Yoga Association and the MAP-IT. Office of the CM & Principal Secretary Commercial Taxes also assisted and guided in the development efforts of this programme.

EXECUTION AND PROGRESS OF THE PROGRAM

District Ayush Officer has the database of covid positive cases. Allocation of beneficiaries was done to Yoga Prashishaks using application interface, to communicate with these patients for consent. Batches of fifteen have been allotted to each prashishak. They are then given training for three days. Till date 119185 home isolated patients have been catered by the yog trainers.

Cumulative progress status till date

ONE in every THREE Home Isolated COVID-19 Patients benefitted from "YOG SE NIROG"

Step by Step Process	Beneficiary (No)	Percent
Individuals who were contacted by Yog Prashishaks	1,43,094	61%
Individuals with incorrect mobile no/switched off/other reasons	55,055	39%
Individuals who agreed to be a part of this program	1,20,014	51%
Individuals who actually participated in the program	1,08,077	90%

ROAD AHEAD

Looking into the widespread acceptance of this program and as per the perspective of our Hon'ble CM Shri Shivraj Singh Chouhanji, such initiatives with social participation and traditional acceptance should be continued, carrying forward our heritage based on adjuvant medical and social interventions.

While sincerely acknowledging the guidance by the Honorable Chief Minister, Go MP has given directions to start Post Covid Yog -se -Nirog. This program is for Covid -19 home isolated patients both present and discharged.

Website was prepared by MAP- IT. It's ready for patients to register. Patients will receive SMS once registered. Willing patients can do self-registration on website. The Post Covid Yoga module is ready. General wellness and Yoga classes will be conducted online for these patients.

This intervention of yogic practices in the pandemic, should pave way to revive our ageold traditions in the most comprehensive and friendly manner on scientific lines. As per AYUSH, the immortal concept of well being is maintenance of good health and restoration of its virtues, in the most natural and prompt manner.
